JOURNEY ON AI

Turn AI search enquiries into direct bookings and qualified MICE RFPs

A Next-Gen Website & Generative Search Optimization (AISO) Proposal for Menara Peninsula Hotel Jakarta

Prepared for General Manager & Director of Sales · November 2026

WHERE WE START

How corporate guests & planners discover hotels has changed forever

OTAs take 18% to 20%

Traditional keyword search defaults guests to OTAs (Traveloka, Agoda, Booking.com), costing the hotel massive commission fees on corporate and leisure stays each month.

Guests now ask AI engines

C-suite executives, corporate EAs, and wedding planners query ChatGPT, Perplexity, and Gemini directly for hotel specs, ballroom capacities, and package pricing.

Legacy sites stay invisible

If property assets and pricing are locked in unstructured HTML or PDFs, AI crawlers fail to parse them and recommend regional competitor hotels instead.

In our live partner hotels, **over 35% of high-intent guest discovery** now originates from conversational and AI-first channels.

THE DISCOVERY & CONVERSION FLOW

From conversational AI enquiry to direct booking

1

Planner asks AI

Questions on ballrooms, corporate packages, and rooms are asked naturally on ChatGPT, Perplexity, or Gemini.

2

AI cites Peninsula

Structured AISO data ensures Menara Peninsula is cited with an authoritative direct link to the official hotel website.

3

Fast luxury website

Sub-second load times (<0.8s) deliver room specs, ballroom capacities, and transparent package inclusions.

4

Direct closing

Guest books directly or submits an event brief. Clean pre-configured container ready for JourneyOn AI Assistant.

JOAI optimizes the discovery. Your website captures the guest. Your team keeps the deal.

What Machine Crawlers Receive

Server-Side Rendered Schema (JSON-LD)
Every room has exact dimensions, occupancy, bed types, and bathroom amenities mapped into structured data.

Direct Pricing & Policy Signals
Best Rate Guarantee, check-in policies, and airport transfer (IDR 380k) are read in single-digit milliseconds.

Google Free Booking Links
Direct rates appear organically in Google Hotel Search at zero commission and zero ad spend.

Real room photography from menarapeninsula.com is embedded natively with zero placeholder images

MICE & WEDDINGS

High-ticket banquet revenue, fully indexed for event planners

Cengkeh Ballroom & Meeting Suites

- **Cengkeh Grand Ballroom:** 735 sqm, column-free, 7–8m ceiling, up to 1,200 standing capacity.
- **15 - 20 Modular Meeting Suites:** Kunir, Dlima, Jasmine with audio-visual support.
- **Halfday Meeting Package:** 1 coffee break with 3 snacks, 1 lunch/dinner, 4-hour venue usage.
- **Fullday Meeting Package:** 2 coffee breaks with snacks, 1 lunch/dinner, 8-hour venue usage.

Signature Wedding Packages

- **Platinum Wedding Package:** 400 buffet orders, Junior Suite + 6 Deluxe rooms for family, 120-min Artha Spa, 1st Anniversary stay.
- **Diamond Wedding Package:** 300 buffet orders, Junior Suite + 4 Deluxe rooms, 90-min bridal spa, food tasting for 6 persons.
- **Wedding Blessing & Akad Nikah:** 6-hour venue usage with dedicated hospitality suite.

Closing just **1 additional signature wedding per quarter** completely self-funds this digital upgrade.

COMMERCIAL LOGIC

Recapturing direct bookings from 18% OTA commission

18% to 20%

CURRENT OTA COMMISSION

Paid on every third-party room booking through aggregator channels.

150+

MONTHLY ROOM NIGHTS

Target shift to owned direct engine via conversational discovery.

0%

OTA DIRECT FEE

Hotel keeps 100% of direct room margin and guest relationship.

First-Party Customer Ownership

When corporate guests book through OTAs, the OTA owns their data and remarkets competitor hotels for their next trip. By capturing bookings directly via your high-performance website and AISO discovery, Menara Peninsula owns the guest relationship permanently, eliminating recurring customer acquisition costs.
