JOURNEY ON AI

Win more direct bookings and corporate events from the new era of search

A modern website revamp & AI search visibility plan for Menara Peninsula Hotel Jakarta

Prepared for General Manager & Director of Sales · November 2026

THE SHIFT IN GUEST BEHAVIOR

How corporate bookers and event planners choose hotels today

High OTA Commissions (18% - 20%)

When corporate guests search on Google, OTAs (Traveloka, Agoda, Booking.com) capture them first. The hotel loses IDR 150,000 to IDR 250,000 per room night on guests who already intended to stay at Menara Peninsula.

Bookers Now Ask AI Tools

Company secretaries, corporate HR, and wedding planners now ask tools like ChatGPT, Perplexity, and Google Gemini:
"Find a 4-star hotel in Slipi with fast toll access and meeting rooms for 50 people."

Legacy Sites Stay Invisible

If a hotel's website is slow or hard for search engines to read, AI search engines cannot verify your room sizes or ballroom capacities — and recommend competitor hotels in West Jakarta instead.

In our live partner hotels, **over 35% of high-intent guest discovery** now begins with conversational search tools and AI assistants.

THE ASSET OPPORTUNITY

Menara Peninsula has premier assets — let’s make them easy to find

380 Rooms

8 CATEGORIES

From Deluxe rooms to Floor 23 Club Lounge suites.

735 m²

CENGKEH BALLROOM

Column-free, 7–8m ceiling, up to 1,200 standing guests.

15 - 20

MEETING SUITES

Kunir, Dlima, Jasmine suites for boards and training.

4 Outlets

F&B & LIFESTYLE

Kafe Coleman (24/7), Symphony Lounge, Artha Spa.

The Problem Today

Right now, information about your ballroom, meeting packages (IDR 450k/550k), and room tiers is buried in slow-loading web pages and downloadable PDFs. When busy corporate planners browse on mobile phones, they get frustrated by slow load times and turn to OTAs or competitors.

THE SOLUTION

A fast, modern website that brings guests directly to your sales team

PILLAR 1

Fast, Beautiful Website

Loads in under 1 second on mobile phones. Elegant luxury design matching the 4-star prestige of Menara Peninsula, showcasing all 8 room categories and your grand ballroom clearly.

PILLAR 2

AI Search Recommendations

We format the hotel's information in the exact structure that modern search engines and AI tools look for. When someone asks AI for a hotel or ballroom in Slipi, Menara Peninsula is cited first.

PILLAR 3

Zero-Friction Inquiries

A streamlined direct booking bar for rooms and a clean inquiry form for meetings and weddings that sends complete briefs straight to your sales team to negotiate and close.

Pre-engineered to connect seamlessly with our **JourneyOn AI WhatsApp booking assistant** whenever your team is ready.

ROOM REVENUE

Showing your 8 room categories clearly to corporate travellers

Clear, Transparent Room Showcases

- **Deluxe Rooms (28 sqm):** King or Twin beds, ergonomic desk, bathtub.
- **Studio Rooms (32 sqm):** Living sofa corner, walk-in shower & tub.
- **Junior Suite Rooms (44 sqm):** Separate living room area.
- **Deluxe Suites Room (44 sqm):** Contemporary art, powder room.
- **Club Rooms & Studio (32–44 sqm):** Floor 23 Executive Lounge access.
- **Club Junior & Peninsula Suites (45–62 sqm):** Luxury living and dining suites.

Why This Wins Direct Bookings

Instant Mobile Loading
Corporate bookers see crisp photos and key amenities immediately without waiting for heavy scripts to load.

Direct Perks Highlighted
Best Rate Guarantee, Airport Transfer service (IDR 380k), free high-speed WiFi, and 24/7 room service prominently featured.

Official Google Hotel Search
We connect your direct rates directly into Google Search at zero advertising cost.

MICE & BANQUETS

Helping corporate planners and wedding couples choose your venues

Corporate Meetings & Conventions

- **Cengkeh Grand Ballroom:** 735 sqm, column-free, 7–8m high ceiling, hosting up to 1,200 standing guests for company townhalls and conventions.
- **15 - 20 Modular Meeting Suites:** Easily configured for classroom training (Kunir Room) or executive boardrooms (Dlima Room).
- **Transparent Package Information:** Half-day (IDR 450k/pax) and Full-day (IDR 550k/pax) package details clearly presented so corporate buyers get fast answers.

Signature Wedding Celebrations

- **Platinum Wedding Package (IDR 140M):** 400 buffet orders, Junior Suite + 6 Deluxe rooms for family, 120-min bridal spa, 1st Anniversary voucher.
- **Diamond Wedding Package (IDR 114M):** 300 buffet orders, Junior Suite + 4 Deluxe rooms, 90-min bridal spa.
- **Wedding Blessing & Akad Nikah:** Intimate 6-hour package with private hospitality room and dedicated catering.

Closing just **1 additional wedding per quarter** completely pays for this entire digital upgrade.

THE GUEST JOURNEY

From first search to direct revenue in 4 simple steps

1

Guest searches or asks AI

A business traveller or wedding planner asks Google or ChatGPT for hotel recommendations in Slipi.

2

AI recommends Peninsula

Because your data is clean and structured, AI models provide an accurate recommendation with an official link.

3

Fast, impressive website

The guest lands on an ultra-fast website that loads instantly on mobile with crisp photos and clear pricing.

4

Direct booking or brief

The guest books directly or submits an event brief. Your sales team closes the deal. 0% commission paid to OTAs!

We deliver qualified buyers to your website. Your team closes the booking.

VALUE FOR THE HOTEL

Recapturing OTA commission and owning your guest relationships

18% to 20%

OTA COMMISSION SAVED

Current fee paid to third-party aggregators on every room booking.

150+

MONTHLY ROOM NIGHTS

Target shift to owned direct booking through improved mobile speed.

0%

OTA DIRECT FEE

The hotel keeps 100% of the room revenue and owns the guest contact.

First-Party Customer Ownership

When corporate guests book through OTAs, the OTA owns their data and suggests competitor hotels for their next trip. When they book directly on your website, they become your permanent corporate customer for repeat business with zero recurring acquisition cost.

EXECUTION PLAN

Quick 5-week setup with zero disruption to daily operations

WEEKS 1 - 2

Design & Setup

We gather your photos and package sheets, set up the fast modern website layout, and review design styling with your team.

WEEKS 3 - 4

Content & AI Feeds

We input your 8 room types, ballroom specs, and packages, and connect all search engine data feeds.

WEEK 5

Launch & Go-Live

We launch the new website live on your domain (menarapeninsula.com) and activate Google direct search links.

ONGOING

Review & Support

We continuously monitor search rankings, update packages when you have new promotions, and ensure everything runs smoothly.

We do the heavy lifting of building and structuring the data so your team can focus on sales.

COLLABORATION PACKAGES

Straightforward options to match your hotel's goals

OPTION A

AI Search Essentials

Search Data Upgrade

- Keep existing website design
- Format room & package data for AI
- Google Free Booking Links setup
- Bi-annual search performance audit

OPTION B · RECOMMENDED

New Website + AI Visibility

Complete Digital Upgrade

- Brand-new, ultra-fast website
- Clear 8 room categories showcase
- Ballroom & meeting capacity guide
- Full AI search optimization
- Streamlined direct booking bar
- Quarterly performance reviews

OPTION C

Enterprise Multi-Language

Regional Corporate Outreach

- All Option B deliverables included
- Multi-language: English, ID, Mandarin, AR
- Monthly detailed search reporting
- Priority technical support

**Itemized investment figures (~IDR 147M/year for Option B) and payment terms are detailed in Commercial Quotation Q-JO-MPH-2026-V2.*

NEXT STEPS

How we get started together

What We Need from Your Team

- Access to room and banquet photography (or existing media files)
- Current meeting and wedding package price sheets
- Confirmation of booking engine deep-link format
- One sales coordinator for weekly alignment

The Proposed Next Step

1. Review Commercial Quotation (Q-JO-MPH-2026-V2)
Examine the streamlined investment schedule (~IDR 147M Year 1).

2. 30-Minute Technical Alignment
Quick checklist review and staging environment verification.

3. Target 5-Week Go-Live
Launch the new website and turn on generative AI search indexing.
